---

**N.B.:**

- 1) Attempt **ANY FOUR** questions.
  - 2) All questions carry **EQUAL** marks.
- 

- Q.1** Environmental protection is not a new concept to Indians. It has been a history and tradition for them. The efforts for environmental protection can be traced from early Indian history to the modern age. Examine the protection of environment in ancient times as well as modern era.
- Q.2** “Taking environmental factors into account, sustainable development meets the needs of the present without compromising the ability of future generations to meet their own needs”. Comment.
- Q.3** Elaborate in detail the various theories of development.
- Q.4** Critically evaluate the role of Government to protect the environment through various five years plans.
- Q.5** The rapid increase of human population is putting an incredible strain on our environment. Discuss the impact of population explosion on environment.
- Q.6** Discuss in detail the concept of polluter pay principle and precautionary principle.
- Q.7** “The Constitution does not contain any provisions to provide right to pollution free environment as a fundamental right, but in view of the liberal interpretation of Article 21 given by the Apex Court, the right to pollution free environment and protection of ecology come to acquire the status of a Fundamental Right under Article 21”. Comment with the help of landmark case laws.
- Q.8** Write a note on:
- a) Public trust doctrine
  - b) Water policy
