

M. D. (HOMOEOPATHY) PART – I (2016 COURSE)
HOMOEOPATHIC PHILOSOPHY/MATERIA MEDICA
/REPERTORY / HOMOEOPATHIC PHARMACY / PRACTICE
OF MEDICINE : SUMMER - 2018

SUBJECT: ADVANCED TEACHING OF FUNDAMENTALS OF HOMOEOPATHY

Day: **Thursday**
Date: **07/06/2018**

Time: **10.00 AM TO 01.00 PM**
Max. Marks: 100

S-2018-3851

N.B.:

- 1) Attempt **ANY FIVE** questions from each section.
- 2) Figures to the right indicate **FULL** marks.
- 3) Each section to be attempted in a **SEPARATE** answer books.

SECTION - I

- Q.1** Homoeopathy is not a 'Placebo-Effect'. Explain with Nanoparticulate perspective. (10)
- Q.2** Explain law of simplex and its correlation with efficacy of individual homoeopathic remedies. (10)
- Q.3** Elucidate the Cell sensitivity, non-linearity and inverse effects of extreme homoeopathic dilutions. (10)
- Q.4** Explain the "Torque-Like" action of Remedies and diseases on the Vital Force and Their Consequences for Homoeopathic Treatment. (10)
- Q.5** Clarify that Langmuir equation shows that homoeopathic medicines may not be as dilute as a simplistic application of Avogadro's Principle suggests, due to surface effects. (10)
- Q.6** Explain how the rebound effect of biologic agents supports the 'Principle of Similars'. (10)

SECTION – II

- Q.7** Explain the Polarity analysis, a new approach to increase the precision of homoeopathic prescriptions. (10)
- Q.8** Explain Quantum Superposition, Wave Function Collapse and Conic sections the Therapeutic process as three-way macro-entanglement (between patient, practitioner and remedy called PPR entanglement). (10)
- Q.9** Discuss Homoeopathic drug selection using intuitionist fuzzy sets. (10)
- Q.10** Explain the novel sources of homoeopathic remedies with advances. (10)
- Q.11** Explain implementation of Herring's Law and its advanced application in the management of patient. (10)
- Q.12** Explain 'Silica Hypothesis' for Homoeopathy. (10)
