Max. Marks : 60

N.B. :

- 1) Attempt any **FOUR** questions.
 - 2) All questions carry **EQUAL** marks.
-

- Q.1** “An efficient and equitable intellectual property system can help all countries to realize intellectual property’s potential as a catalyst for economic development and social and cultural well-being.” Elaborate the categories of IPR and explain the commercial exploitation and development of IPR.
- Q.2** “IPRs are based on the protection of individual property rights and these are given as exclusive rights whereas traditional knowledge is held by individuals, tribes, nations and different independent communities and the use and sharing of this is guided and regulated by complex collective systems and customary laws and norms.” Elaborate the IPR laws for protection of Traditional Knowledge.
- Q.3** Discuss the term ‘Patent’ and elaborate the provisions relating to ‘search and examination’ of patent under the Patents Act, 1970.
- Q.4** “E registration of a trade mark confers upon the owner the exclusive right to use that mark. Thus, it is his responsibility to educate the consumers on the unique features of his product as against products of other manufacturers.” Elaborate the rights of consumers and provisions relating to protection to product under the Trademark Law.
- Q.5** “The general obligations are a set of principles for fairness, transparency, due process and balance that apply to all civil and administrative enforcement procedures for IP rights covered by the TRIPS Agreement.” Elaborate the principles of TRIPs for protection of IPR.
- Q.6** “Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive an impart information and ideas through any media and regardless of frontiers.” Elaborate the relationship between IPR and Human Rights.
- Q.7** Explain the problems of the status of computer software in copyright and patent law.
- Q.8** Define “Biotechnology Patent”. Discuss the provisions relating to *sui generis protection* for plant varieties and concept of multinational ownership in context of biotechnology patent.
