**Q.4** Read the passage & answer the questions given below **(10)**

The grandeur of a drawing room and a living room is best felt when there is an element of nature's pride possession – a tree, or an indoor plant, or even for that matter a sapling. Children as of now get to see less of greenery and more of technologically driven software parks. Fortunately we have come to a point where we can bring the world of flora to our homes.

In the emerging world scenario, interior decoration has become a passion and a dictum for healthy living. The art of planting in small pots with its branches neatly trimmed gives rise to small neat structures of plants. These plants are easy to grow indoors as long as they have soil, air, light and water. Plants can be grown in the house all year round. Of late, Bonsai have attracted the attention of one and all. Botanists say that Bonsai are ornamental trees or shrubs grown in a pot and artificially prevented from reaching their normal size. The Japanese specialize in Bonsai and Ikebana. The latter flowers are displayed according to strict rules.
